

VELYKŲ UŽDUOTYS

VAIKAMS 2-4 m.

Užduotys lavina:

- Dėmesį;
- Logiką, mąstymą;
- Atmintį;
- Smulkiąją motoriką.

Velykų kiškis

Eina kiškis takeliu
Su pintiniu krepšeliu.
O krepšelyje margučiai,
Duos kiškelis jų vaikučiams.
Kiekvienam dalins po vieną,
Kad Velykų šventės dieną
Būtų linksma ir smagu
Su kiškučio margučiu.

Palei kelią

Tupi kiškis palei kelią,
Dailiai margina kraitelę.
Čiūžt laputė, žvilgt kreivai:
– Vai, kiškuti, vai vai vai!
Tu, žvairėli, taip gražiai,
Tą kraitelę nudažei?
Tai kraitelė, tai marga,
Tartum genio uodega.

Margučius joje matau:
– Štiš, lapute,
Jie ne tau!

Velykė

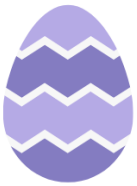

Dirvonai nupliko.
Ištirpo skrebučiai.
Sulaukėm Velykų,
Atrieda margučiai.

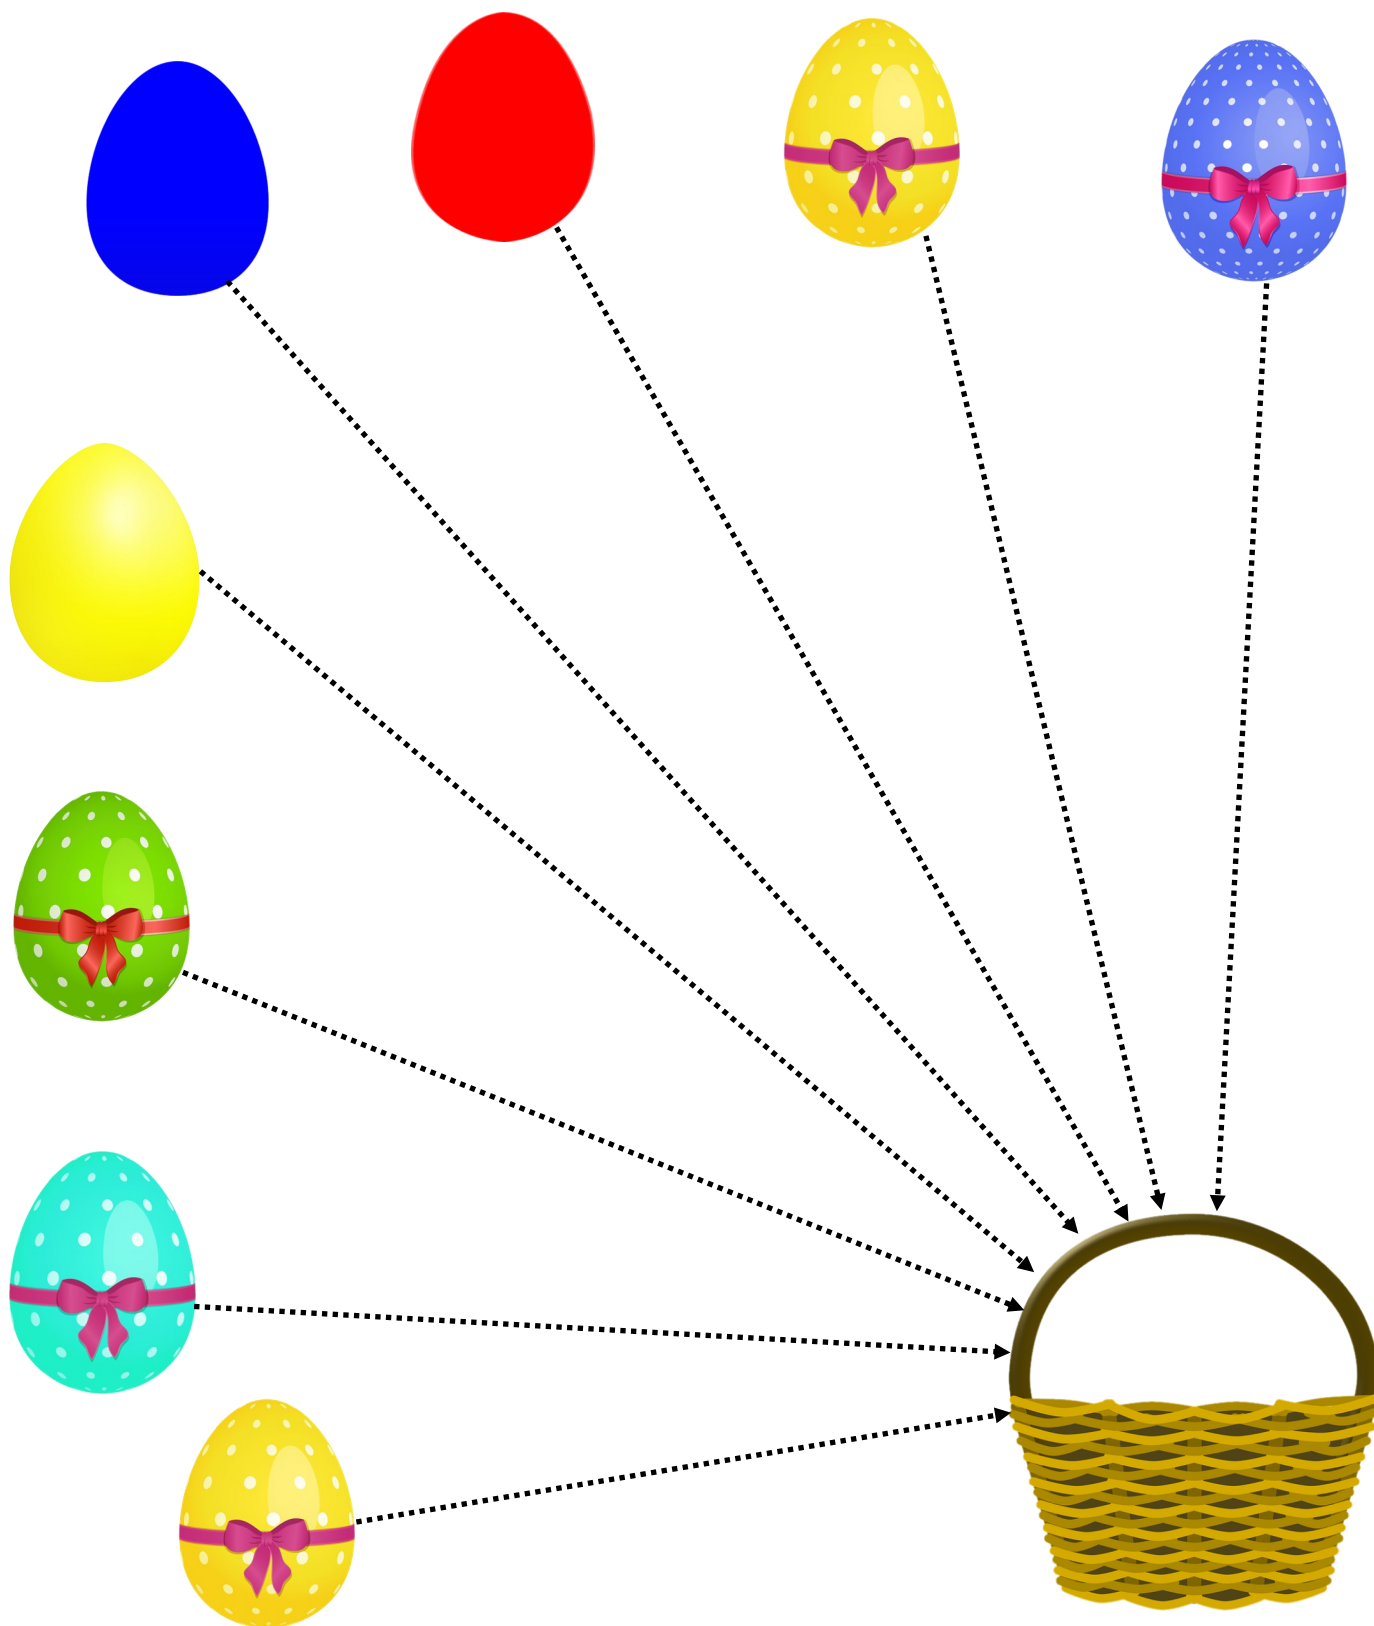

Tikriausiai jau matėt
Ar buvot sutikę
Prie durų, prie slenkščio
Bobutę Velykę.

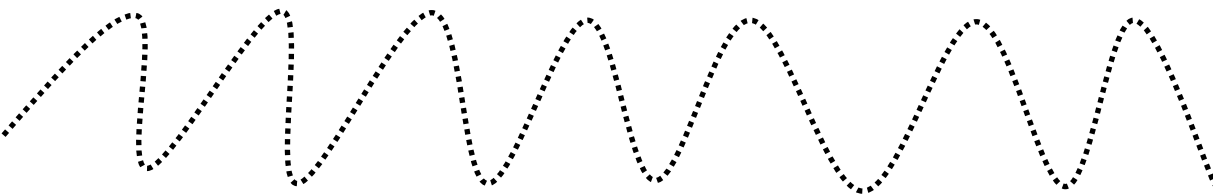

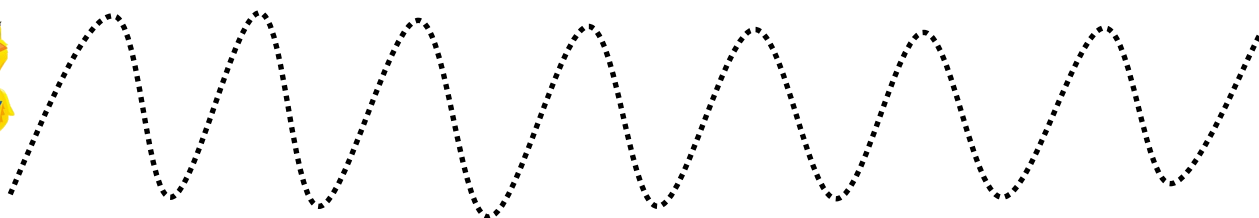

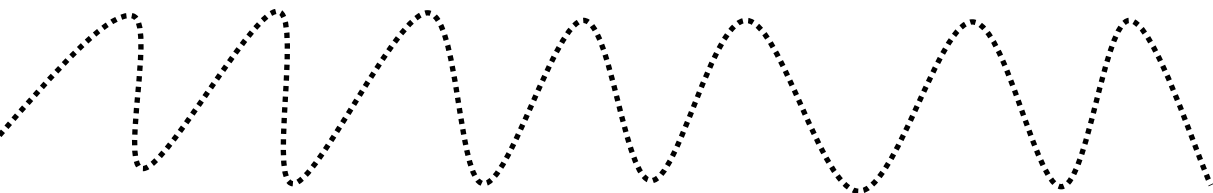

Net pievoj pempukai
Iš džiaugsmo sukliko:
– Sulaukėm Velykų!
Sulaukėm Velykų!

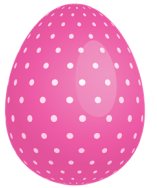

Velykos atėjo

Klanais ir klaneliais
Vanduo nupliuškęjo.
Balandis sušuko:
“Velykos atėjo!”
Ir dažo margai kiaušinius.
Klanais ir klaneliais
Vanduo nupliuškęjo.
Prie tako žibutė
Meili pražydėjo
Ir džiugina jaunos, senus.
Klanais ir klaneliais
Vanduo nupliuškęjo.
Balandis sušuko:
“Velykos atėjo!”
Velykos, Velykos pas mus!
